COLE & WILSON GENTLE CARE DETERGENTS SAFETY DATA SHEET

Caretex Professional Stainbuster J

SECTION 1: Identification of the	ne substance/mixture and of the company/undertaking
1.1. Product identifier	
Product name	Caretex Professional Stainbuster J
Product number	7524/12068
1.2. Relevant identified uses o	f the substance or mixture and uses advised against
Identified uses	Bleach
1.3. Details of the supplier of th	he safety data sheet
Supplier	Cole & Wilson
	Rutland Street
	Bradford
	BD4 7EA
	Tel: 1274 393286
	Fax: 01274 309143
	info@colewilson.co.uk
1.4. Emergency telephone nur	nber
Emergency telephone	Tel; 01274 393286, Fax; 01274 309143
SECTION 2: Hazards identifica	ation
2.1. Classification of the substa	ance or mixture
Classification (EC 1272/2008)	
Physical hazards	Not Classified
Health hazards	Eye Dam. 1 - H318
Environmental hazards	Not Classified
Classification (67/548/EEC or	
1999/45/EC)	λι,κ41. Ο,κ7.
Human health	Irritating to eyes.
Environmental	The product contains a substance which is toxic to aquatic organisms.
2.2. Label elements	
Pictogram	
Signal word	Danger
Hazard statements	H318 Causes serious eye damage.

Precautionary statements	P280 Wear protective gloves/ protective clothing/ eye protection/ face protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310 Immediately call a POISON CENTER/ doctor.
Contains	6-(PHTHALIMIDO)PEROXYHEXANOIC ACID
Detergent labelling	15 - < 30% oxygen-based bleaching agents, < 5% phosphonates
Supplementary precautionary statements	P310 Immediately call a POISON CENTER/ doctor. P410 Protect from sunlight. P420 Store separately.

2.3. Other hazards

SECTION 3: Composition/information on ingredients

3.2. Mixtures

6-(PHTHALIMIDO)PEROXYHEXANOIC ACID		15-30%
CAS number: 128275-31-0	EC number: 410-850-8	
M factor (Acute) = 1		
Classification	Classification (67/548/EEC or 1999/45/EC)	
Org. Perox. D - H242	O;R7 Xi;R41 N;R50	
Eye Dam. 1 - H318		
Aquatic Acute 1 - H400		
1,1-Hydroxy-ethyliden diphosphon	ic acid disodium salt	1-5%
CAS number: 7414-83-7	EC number: 231-025-7	

Classification

Aquatic Chronic 2 - H411

The Full Text for all R-Phrases and Hazard Statements are Displayed in Section 16.

SECTION 4: First aid measures

4.1. Description of first aid measures

•	
Inhalation	Move affected person to fresh air at once. If breathing stops, provide artificial respiration. Get medical attention if any discomfort continues.
Ingestion	Rinse mouth thoroughly with water. Give plenty of water to drink. DO NOT induce vomiting. Get medical attention immediately. Never give anything by mouth to an unconscious person. Do not induce vomiting.
Skin contact	Remove affected person from source of contamination. Remove contaminated clothing immediately and wash skin with soap and water. Get medical attention promptly if symptoms occur after washing.
Eye contact	Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Continue to rinse for at least 15 minutes. Get medical attention immediately. Continue to rinse.
4.2. Most important symptom	is and effects, both acute and delayed
Inhalation	Irritation of nose, throat and airway.
Ingestion	Nausea, vomiting. Diarrhoea. May cause stomach pain or vomiting.

Skin contact	Prolonged contact may cause redness, irritation and dry skin.
Eye contact	Severe irritation, burning and tearing.
-	e medical attention and special treatment needed
Notes for the doctor	No specific recommendations. If in doubt, get medical attention promptly.
SECTION 5: Firefighting meas	ures
5.1. Extinguishing media	
Suitable extinguishing media	Use fire-extinguishing media suitable for the surrounding fire. Water spray, foam, dry powder or carbon dioxide.
Unsuitable extinguishing media	None known.
5.2. Special hazards arising fro	om the substance or mixture
Specific hazards	Oxygen released in thermal decomposition may support combustion. Contact with combustible material may cause fire.
Hazardous combustion products	Fire or high temperatures create: Oxygen.
5.3. Advice for firefighters	
Protective actions during firefighting	Containers close to fire should be removed or cooled with water.
Special protective equipment	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective
for firefighters	clothing.
for firefighters SECTION 6: Accidental releas	-
SECTION 6: Accidental releas	-
SECTION 6: Accidental releas	e measures

SECTION 6: Accidental releas 6.1. Personal precautions, prof Personal precautions	e measures tective equipment and emergency procedures Avoid inhalation of vapours and contact with skin and eyes. Wear protective clothing as described in Section 8 of this safety data sheet.
SECTION 6: Accidental releas 6.1. Personal precautions, prof Personal precautions For non-emergency personnel	e measures tective equipment and emergency procedures Avoid inhalation of vapours and contact with skin and eyes. Wear protective clothing as described in Section 8 of this safety data sheet. Prevent further leakage or spillage if safe to do so. Keep away from incompatible products. Sweep up and remove for disposal.
SECTION 6: Accidental releas 6.1. Personal precautions, prof Personal precautions For non-emergency personnel For emergency responders	e measures tective equipment and emergency procedures Avoid inhalation of vapours and contact with skin and eyes. Wear protective clothing as described in Section 8 of this safety data sheet. Prevent further leakage or spillage if safe to do so. Keep away from incompatible products. Sweep up and remove for disposal.
SECTION 6: Accidental releas 6.1. Personal precautions, prof Personal precautions For non-emergency personnel For emergency responders 6.2. Environmental precautions	e measures tective equipment and emergency procedures Avoid inhalation of vapours and contact with skin and eyes. Wear protective clothing as described in Section 8 of this safety data sheet. Prevent further leakage or spillage if safe to do so. Keep away from incompatible products. Sweep up and remove for disposal. Avoid release to the environment. Do not flush into surface water or sanitary sewer system. Avoid the spillage or runoff entering drains, sewers or watercourses. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body.
SECTION 6: Accidental releas 6.1. Personal precautions, prof Personal precautions For non-emergency personnel For emergency responders 6.2. Environmental precautions Environmental precautions	e measures tective equipment and emergency procedures Avoid inhalation of vapours and contact with skin and eyes. Wear protective clothing as described in Section 8 of this safety data sheet. Prevent further leakage or spillage if safe to do so. Keep away from incompatible products. Sweep up and remove for disposal. Avoid release to the environment. Do not flush into surface water or sanitary sewer system. Avoid the spillage or runoff entering drains, sewers or watercourses. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body.
SECTION 6: Accidental releas 6.1. Personal precautions, prof Personal precautions For non-emergency personnel For emergency responders 6.2. Environmental precautions Environmental precautions	e measures tective equipment and emergency procedures Avoid inhalation of vapours and contact with skin and eyes. Wear protective clothing as described in Section 8 of this safety data sheet. Prevent further leakage or spillage if safe to do so. Keep away from incompatible products. Sweep up and remove for disposal. Avoid release to the environment. Do not flush into surface water or sanitary sewer system. Avoid the spillage or runoff entering drains, sewers or watercourses. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. containment and cleaning up Wear suitable protective equipment, including gloves, goggles/face shield, respirator, boots, clothing or apron, as appropriate. Collect spilled liquid in plastic container (NOT METAL). Never return to original tank/container. Flush away small residues with excess water. Contain spillage but do not absorb in sawdust or other combustible material. If substance has entered water course or sewer, advise police. Inform authorities if large amounts are involved.
SECTION 6: Accidental releas 6.1. Personal precautions, prof Personal precautions For non-emergency personnel For emergency responders 6.2. Environmental precautions Environmental precautions 6.3. Methods and material for on Methods for cleaning up	e measures tective equipment and emergency procedures Avoid inhalation of vapours and contact with skin and eyes. Wear protective clothing as described in Section 8 of this safety data sheet. Prevent further leakage or spillage if safe to do so. Keep away from incompatible products. Sweep up and remove for disposal. Avoid release to the environment. Do not flush into surface water or sanitary sewer system. Avoid the spillage or runoff entering drains, sewers or watercourses. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. containment and cleaning up Wear suitable protective equipment, including gloves, goggles/face shield, respirator, boots, clothing or apron, as appropriate. Contain spillage but do not absorb in sawdust or other combustible material. If substance has entered water course or sewer, advise police. Inform authorities if large amounts are involved.

7.1. Precautions for safe handling

Usage precautions	Keep away from heat, sparks and open flame. Avoid spilling. Use approved respirator if air contamination is above an acceptable level. Avoid contact with the following materials: Acids. Moisture. Cleanliness is essential as any contamination may cause decomposition. Never return unused material to original containers. Eye wash facilities and emergency shower must be available when handling this product. Do not expose to temperatures exceeding 50°C/122°F.
7.2. Conditions for safe storage	e, including any incompatibilities
Storage precautions	Keep only in the original container. Keep away from flammable and combustible materials. Keep away from heat, sparks and open flame. Store cool. Protect from light. Unsuitable containers: copper, zinc, aluminium, copper alloy, zinc alloy, aluminium alloy.
Storage class	Chemical storage.
7.3. Specific end use(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.
SECTION 8: Exposure Control	s/personal protection
8.1. Control parameters Occupational exposure limits TWA = 3mg/m3 8.2. Exposure controls	
Protective equipment	
Appropriate engineering controls	Provide adequate general and local exhaust ventilation. As this product contains ingredients with exposure limits, process enclosures, local exhaust ventilation or other engineering controls should be used to keep worker exposure below any statutory or recommended limits, if use generates dust, fumes, gas, vapour or mist.
Eye/face protection	Wear tight-fitting, chemical splash goggles or face shield.
Hand protection	Wear protective gloves made of the following material: Butyl rubber.
Other skin and body protection	Wear suitable protective clothing as protection against splashing or contamination. Wear rubber apron. Provide eyewash station and safety shower.
Hygiene measures	Provide eyewash station and safety shower. Wash at the end of each work shift and before eating, smoking and using the toilet. Promptly remove any clothing that becomes contaminated. Keep away from food and drink. Wash hands and face before break and the end of a shift. Avoid contact with the skin and eyes. Remove dirty clothes.
Respiratory protection	In the case of dust or aerosol formation, use respirator with an approved filter. Recommended Filter type: ABEK-P2
SECTION 9: Physical and Che	mical Properties

9.1. Information on basic physical and chemical properties

Appearance	Liquid.
Colour	White/off-white.
Odour	No characteristic odour.

рН	pH (concentrated solution): 2.8-3.8 (100%) pH (diluted solution): 6.2-7.2 1%
Melting point	75°C
Initial boiling point and range	No specific test data are available.
Flash point	No specific test data are available.
Evaporation rate	No specific test data are available.
Flammability (solid, gas)	Not applicable.
Vapour pressure	No specific test data are available.
Vapour density	No specific test data are available.
Relative density	1.00-1.10 @ 23°C
Bulk density	Not applicable.
Solubility(ies)	Soluble in water.
Partition coefficient	log Pow: 2.2
Auto-ignition temperature	470°C
Decomposition Temperature	>80°C
Viscosity	700 mPa s @ 25°C
Explosive properties	Not considered to be explosive.
Oxidising properties	Does not meet the criteria for classification as oxidising.

Conditions to avoid	Activity The following materials may react with the product: Organic peroxides/hydroperoxides. Oxidising materials. Strong reducing agents. Will decompose at temperatures exceeding 80°C. Stable at normal ambient temperatures and when used as recommended. Feactions Contact with combustible material may cause fire Avoid heat, flames and other sources of ignition. Avoid direct sunlight. Decomposition starts at
Other information SECTION 10: Stability and read 10.1. Reactivity Reactivity 10.2. Chemical stability Stability 10.3. Possibility of hazardous Possibility of hazardous reactions 10.4. Conditions to avoid Conditions to avoid	Activity The following materials may react with the product: Organic peroxides/hydroperoxides. Oxidising materials. Strong reducing agents. Will decompose at temperatures exceeding 80°C. Stable at normal ambient temperatures and when used as recommended. Feactions Contact with combustible material may cause fire Avoid heat, flames and other sources of ignition. Avoid direct sunlight. Decomposition starts at

Hazardous decomposition	Rapid decomposition will release large quantities of oxygen (health and fire risk).
products	Decomposition is exothermic causing temperature rise which will further increase the rate of
	decomposition creating explosive situations. On decomposition irritating gases, vapours and
	oxygen are released.
	Decomposition will not experim if an dust is stored and used composity

Decomposition will not occur if product is stored and used correctly.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Inhalation	May cause respiratory system irritation. Vapours may irritate throat/respiratory system. Symptoms following overexposure may include the following: Coughing.
Ingestion	May cause severe internal injury. May cause stomach pain or vomiting. May cause chemical burns in mouth, oesophagus and stomach.
Skin contact	This product is strongly irritating. Prolonged contact may cause burns.
Eye contact	Risk of serious damage to eyes. A single exposure may cause the following adverse effects: Corneal damage. Irritation, burning, lachrymation, blurred vision after liquid splash.

Toxicological information on ingredients.

6-(PHTHALIMIDO)PEROXYHEXANOIC ACID

Species	Rabbit
Acute toxicity dermal (LD∞ mg/kg)	2,001.0
Acute toxicity - dermal	
ATE oral (mg/kg)	2,001.0
Species	Rat
Acute toxicity oral (LD₅₀ mg/kg)	2,001.0
Acute toxicity - oral	

SECTION 12: Ecological Information

Ecotoxicity

The product may affect the acidity (pH) of water which may have hazardous effects on aquatic organisms. The levels of environmentally hazardous materials are below the limit that would cause the preparation to be classified as Dangerous to the Environment.

12.1. Toxicity

Toxicity

Not considered toxic to fish.

Ecological information on ingredients.

6-(PHTHALIMIDO)PEROXYHEXANOIC ACID

Acute aquatic toxicity	
LE(C)50	$0.1 < L(E)C50 \le 1$
M factor (Acute)	1
Acute toxicity - fish	LC₅₀, 96 hours: 0.4 mg/l, Brachydanio rerio (Zebra Fish)
Acute toxicity - aquatic invertebrates	EC₅₀, 48 hours: 17.6 mg/l, Daphnia magna

Acute toxicity - aquatic plants	IC_{50} , 72 hours: 1.3 mg/l, Selenastrum capricornutum
Acute toxicity -	EC₅₀, ∶100 mg/l, Bacteria

microorganisms

12.2. Persistence and degradability

Persistence and degradability Readily biodegradable.

Ecological information on ingredients.

6-(PHTHALIMIDO)PEROXYHEXANOIC ACID

Biodegradation	- 70%: 28 days
Biological oxyge	on demand 89%
12.3. Bioaccumulative potent	ial
Bioaccumulative potential	The product does not contain any substances expected to be bioaccumulating.
Partition coefficient	log Pow: 2.2
Ecological information on ing	redients.
	6-(PHTHALIMIDO)PEROXYHEXANOIC ACID
Partition coeffici	ent log Pow: < 3
12.4. Mobility in soil	
Mobility	No specific test data are available.
12.5. Results of PBT and vPv	/B assessment
Results of PBT and vPvB assessment	This product does not contain any substances classified as PBT or vPvB.
12.6. Other adverse effects	
Other adverse effects	No specific test data are available.
SECTION 13: Disposal consi	derations
13.1. Waste treatment metho	ds
Disposal methods	WASTE/UNUSED PRODUCTS: Collect all waste in suitable and labelled containers and dispose of according to legislation. CONTAMINATED PACKAGING: Empty containers should be taken for recycling, recovery or waste in accordance with local regulations. For recycling, ensure container is empty and bungs are replaced. Arrange disposal as a special waste by licensed disposal company in consultation with Local Waste Disposal Authority and in accordance with the Control of Pollution Act 1974.
EURAL Code	
SECTION 14: Transport infor	mation

SECTION 14: Transport information

General

The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID). Not regulated.

14.1. UN number

Not applicable.

14.2. UN proper shipping name

Not applicable.

14.3. Transport hazard class(es)

Transport labels

No transport warning sign required.

14.4. Packing group

Not applicable.

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

14.6. Special precautions for user

Not applicable.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU legislation

Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures (as amended).

15.2. Chemical safety assessment

SECTION 16: Other information

No chemical safety assessment has been carried out.

Revision comments	Revision is in accordance with Commission Regulation (EC) No 1272/2008
Revision date	10/02/2015
Revision	3
Supersedes date	19/08/2013
SDS number	7524/12068
Risk phrases in full	R41 Risk of serious damage to eyes. R50 Very toxic to aquatic organisms. R7 May cause fire.
Hazard statements in full	H242 Heating may cause a fire. H318 Causes serious eye damage. H400 Very toxic to aquatic life. H411 Toxic to aquatic life with long lasting effects.
